ACT! 10.0.3 Standard Update (US)

 Latest Updates
 Title: ACT! 10.0.3 Standard Update (US)

  Description:

*Before you install the ACT! 2008 (10.0.3) release, please be aware of the following:

Compatibility
ACT! 2008 10.0, 10.0.1 or 10.0.2 users cannot share the same database with ACT! 2008 (10.0.3) users. All users in a workgroup must be on the same version to access and take advantage of the new release.

Mixed ACT! Premium and ACT! Premium for Web Environments
ACT! Premium and ACT! Premium for Web users who share a database must also be on the same version number in order to access and share data. Administrators for these mixed environments should wait to update to ACT! Premium 2008 (10.0.3) until both web and windows versions are available.

Synchronization Services
If synchronization is employed, and any users are on version 10.0.3, the sync service must be upgraded.
Note: Updated Sync Services are included in the full ACT! 2008 (10.0.3) product download.

Please review:
How to Download and Apply the ACT! by Sage 2008 (10.0.3) Service Pack prior to installing this update.
