

## **Allied Financial Software Knowledgebase**

### **Age not updating on ACT! 2006-2009 only**

Act4Advisors Plugin Update:

Confirm you are opening ACT! using the defaulted ACT! icon and NOT the database's PAD file.

Also, confirm your startup view is set to Contact. Tools > Preferences > Startup tab > Startup View = Contact

If these do steps do not work AND if you are running ACT! 2006-2009,

Close ACT. Run this plugin update on computers running Act4Advisors.

Download and Run:

Technorati
