Allied Financial Software Knowledgebase

How to remove old users or you are getting the severe warning message with 3 day grace period.

Go to File, Administration, Define Users. For example you have a 5 User Network License with Act4Advisors, there should not be more than 5 users listed. If more, uncheck "Enable Logon" for those that are inactive. You may delete old user records and you MUST Reassign to another user or you will lose data.
