

Error: "Specified argument without range of values" When Resizing Mini-Calendar

Question

When attempting to resize the mini-calendar you receive the following error message: "Specified argument without range of values".

Answer

This can result if your DPI (Dots Per Inch) settings are not 96. You must change this setting to 96 DPI.

Follow the steps for your Operating System below:

Windows® Vista®: Right-click the Windows desktop, and then click Personalize from the shortcut menu. The Personalize dialog box appears:

Select Adjust font size (DPI) on the upper left hand side. The DPI Scaling dialog box appears:

Under DPI Scaling, change the DPI setting display to Default scale (96 DPI) and then click OK. The following warning appears:

Click Restart Now to restart the computer to complete the changes.

Windows XP® and Windows 2003 Server®: Right-click the Windows desktop, and then click Properties from the shortcut menu (or double-click the Display icon from the Windows Control Panel). The Display Properties dialog box appears:

Under the Appearance tab, ensure that the Font Size field is set to Normal.

Under the Settings tab, click the Advanced button. The Plug and Play Monitor and Intel(R)... Graphics dialog box appears:

Under the General tab, in the Display section, change the DPI setting display to Normal size (96 DPI) and then click OK. The following warning appears:

Click OK, and then restart the computer to complete the changes.

Windows 2000®: Right-click the Windows desktop, and then click Properties from the shortcut menu (or double-click the Display icon from the Windows Control Panel). The Display Properties dialog box appears:

Under the Settings tab, click the Advanced button. The Default Monitor and Intel Corporation Graphics Controller... dialog box appears:

Under the General tab, in the Display section, change the Font Size display to Small Fonts - Normal size (96 dpi) and then click OK. The following Change System Font warning appears:

Click OK and then restart the computer to complete the changes.
