Not able to generate labels with home or preferred mailing address.

You are trying to generate labels with home or preferred mailing addresses. You are getting work or business addresses instead.

By default ACT had created templates for business addresses. We have created templates that will produce home/preferred mailing addresses.

In ACT, go to File and Print.

Please choose any of the A4A labels for the preferred mailing address.

Note: the blank areas indicate there are no address entered in for contacts in this lookup example.
